DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 12: line 16, replace "relieved" with --recessed--.

The following is a statement of reasons for the indication of allowable subject matter:

As presented in claim 12, the back part abutment is the outermost edge of the back part (see lines 12-15) and therefore distinguishes over Schellenberg. Moreover, there appears to be no teaching, suggestion, or motivation for modification of Urciuoli et al to provide the abutment of the front part extending at least as great an extent as the abutment of the back part as claimed in claim 12. Therefore, it is the examiner's opinion that the claimed invention distinguishes over the available prior art.

Art Unit: 3728

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
